| <p>Goals/Objectives to be accomplished:</p> | <p>Since May 2024 Justice Forum, the Potter-Randall SIM priorities and respective groups have agreed to integrate into the PBHA Justice Reentry Workgroup which will focus on the reentry issues from each SIM intercept into the community.</p> <p>PBHA convened and facilitated the Reentry Workshop to identify a new shared consensus on next steps and goal for the group in September and October. We are in the process of streamlining justice related projects as internal and external projects.</p> |
| <p>Challenges/Issues for progress:</p> | <p>Scope creep will need to be managed to address stakeholders' identification of various aspects of reentry (Justice vs. Hospitals vs. Homelessness vs. Prevention/SDOH) while aligning with PBHA's overarching goal of improving access to care by enhancing continuity of care and systemic coordination for justice-involved individuals with mental illness and substance use issues.</p> |
